DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Group II, claims 20-31, in the reply filed on 7/3/08 is acknowledged.

Drawings

The drawings are objected to because it is labeled "Fig. 1", which should be deleted since it is the only figure in the application. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not

accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20-31 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over JP 2001-31419 A.

Regarding claims 20-31, JP '419 discloses a high purity copper sulfate produced by a process wherein a high purity is achieved, which would correspond to low impurity content.

Claims 20-31 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over JP 05-262523 A.

Regarding claims 20-31, JP '523 discloses a high purity copper sulfate produced by a process wherein a high purity is achieved, which would correspond to low impurity content.

Claims 20-31 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over JP 47-40634 B1.

Regarding claims 20-31, JP '634 discloses a high purity copper sulfate produced by a process wherein a high purity is achieved, which would correspond to low impurity content.

In the event any differences can be shown for the product of the product-by-process claims 20-31, as opposed to the product taught by JP '419, JP '523, or JP 634, such differences would have been obvious to one of ordinary skill in the art at the time the invention was made as a routine modification of the product in the absence of a showing of unexpected results; see also In re Thorpe, 227 USPQ 964 (Fed.Cir. 1985).
